

OEM TEC GmbH is a successful medium-sized metal processing company in the Leipzig - Halle area, which is active as a globally operating manufacturer of cutting tools for agricultural and garden technology.

To strengthen our team, we are looking for a motivated member of staff to join us with immediate effect.

## **Maintenance (m/f/d)**

### **Your tasks:**

- Maintenance of machines and automated production systems
- Carrying out maintenance and service tasks as well as taking over preventive maintenance
- Ensuring ongoing operation by independently eliminating faults and optimising plant and machinery
- Monitoring and evaluating maintenance work carried out by external companies
- Supporting and participating in new/replacement investments as well as conversion and expansion projects

### **What you bring:**

- You have completed vocational training as an electrician/electronics technician, industrial or plant mechanic, mechatronics technician or industrial electronics technician for production technology or have a comparable qualification.
- You have professional experience with production machines and in the repair and maintenance of plants and machines.
- Technical understanding, independent and self-reliant way of working and ability to work in a team
- Knowledge of occupational health and safety regulations

### **We offer you:**

- a varied and challenging task in a future-oriented and stable medium-sized company with a high degree of manufacturing diversity
- Well-founded training in an open and cooperative working atmosphere
- attractive remuneration with flexible working hours (flexitime system)
- up to 30 days holiday
- company health management

This challenge suits you?

Then we look forward to receiving your detailed and informative application documents. Please send them to the following address, stating the next possible starting date for you:
