

OEM TEC GmbH is a successful medium-sized metal processing company in the Leipzig - Halle area, which is active as a globally operating manufacturer of cutting tools for agricultural and garden technology.

To strengthen our production team, we are immediately looking for dedicated

CNC machine operator (m/f/d)

Your tasks:

- Operating and monitoring high-precision parts on CNC-controlled machines while complying with quality and safety standards
- Testing and checking production-relevant data
- Optimisation of machine and process sequences
- Ensuring quality with the usual measuring equipment including coordination with the quality assurance department
- Taking over cleaning activities as well as minor maintenance and servicing activities

What you bring:

- You have completed vocational training as a machine and plant operator (m/f/d) or metal technology specialist, specialising in machining technology, or have a comparable qualification
- Initial work experience with CNC-controlled machines and systems in metal processing
- High quality awareness and safe handling of measuring equipment
- Initiative and ability to work in a team
- Willingness to work shifts in a 3-shift system

We offer you:

- a varied and challenging task in a future-oriented and stable medium-sized company with a high degree of manufacturing diversity
- Well-founded training in an open and cooperative working atmosphere
- a performance-related salary
- holiday pay and Christmas bonus
- up to 30 days holiday
- company pension scheme including capital-forming benefits
- company health management

This challenge suits you?

Then we look forward to receiving your detailed and informative application documents. Please send them, stating your next possible starting date, to the following address:
